

ADHIL P

Full Stack Developer (MERN)

+91 8590318805 — adhilp387@gmail.com — LinkedIn — GitHub

Summary

Full Stack MERN Developer with hands-on experience building and deploying production-ready web applications. Proficient in React, Node.js, Express, and MongoDB with strong experience in secure authentication, role-based systems, REST APIs, real-time features using Socket.IO, and deployment using Docker and AWS.

Technical Skills

Frontend: React.js, Redux Toolkit, React Router, HTML5, Tailwind CSS

Backend: Node.js, Express.js, REST API Design

Database: MongoDB, Mongoose ODM

Auth & Real-Time: JWT Authentication, Role-Based Access Control (RBAC), Socket.IO

DevOps & Deployment: Docker, Docker Compose, AWS EC2, Nginx, Vercel

Tools: Git, GitHub, Postman, Axios, VS Code, Linux, Environment Variables

Soft Skills: Leadership, Communication

Experience

Full Stack Developer Intern

May 2025 – Present

Bridgeon Solutions, Onsite

- Developed and integrated frontend and backend components for secure, role-based MERN applications.
- Implemented JWT authentication and role-based access control, and built REST APIs supporting core application workflows.
- Collaborated with team members using Git and GitHub, contributing to feature development, code reviews, and scalable architecture practices.

Projects

EduNexus – Review Management System

- Designed and developed a role-based review management platform supporting multiple user types with secure access control.
- Built and maintained REST APIs covering authentication, scheduling, reviews, notifications, and system workflows.
- Implemented real-time chat and notification features using Socket.IO to improve communication and coordination.
- Containerized frontend and backend services using Docker and deployed the application on AWS EC2 with production-ready configuration.

Education

Bachelor of Computer Applications (BCA)

2022 – 2025

Alphonsa Arts and Science College, University of Calicut
